

MVP LINDA PAULINE

We are honored to recognize Linda Pauline as the recipient of the 2008 San Francisco Bay Area's Chapter MVP Award

Linda was nominated for her passion, her dedication and her infectious enthusiasm for ACP. Linda has been part of the chapter since it was started and I don't think we would have come this far without her. She has been essential to our chapter's growth and success.

Some of the comments from others:

1. Linda is the glue that holds our Chapter together. Her communications are always thorough, professional and informative. Her enthusiasm is amazing. We are all busy professionals, but Linda always makes time to respond quickly and effectively.
2. Linda has been an integral part of the chapter since inception. She has rallied the troops and kept the team organized. She has been instrumental in maintaining and managing the chapter through all of its ups and downs. Even through her own difficulties, Linda has remained positive, tenacious and passionate about ACP. The passion has been infectious since many other people have joined due to her excitement about the program.
3. Linda was instrumental in getting me to join ACP rather than the other organizations out there. She helped me get my certification, and it proved to me that the knowledge base at ACP is accessible and willing to help.
4. When I decided to start joining the meetings, Linda was the first person I encountered and she kept me interested and motivated in renewing my membership. If it were not for Linda I would probably have not joined any group and then I would have lost out on all the great resources that ACP has to offer...way to go Linda!
5. Linda is a valued member of our board and she has done a lot to keep our group going. Linda is instrumental in helping the board with all of the many administrative tasks that make the chapter run smoothly.
